ABSTRACT: This article presents some findings of the E-Learning Manager (ELM) Project regarding the implementation of an Europe-wide certification for learning professionals. The members of the project identified three main domains/units in which an e-learning manager should possess skills: pedagogy; technology and management. For each domain there were several elements identified and rated according to the results obtained after the piloting stage.

Key words: e-learning manager, skill set

Jel codes: A2, M12, M15
