

FINANCIAL INFORMATION SECURITY IN THE CLOUD

*Bogdan Ștefan Ionescu, Academy of Economic Studies, Bucharest, Romania
Laura Elena Tudoran*

ABSTRACT: For the romanian accounting market the implementation of specific accounting operations using cloud computing based solutions is now a reality. In this article we want to present the main security issues related to the financial data stored in the cloud, using both technically and financial specialists points of view.

Keywords: cloud computing, security, dematerialization of accounting documents
